

GATX Rail Europe is a leading, full-service railcar lessor offering a high quality and diversified fleet to over 20 European countries. With an experienced, service-oriented team, we are focused on making railcar leasing and rail transport simple, efficient, and seamless thus we have strategically located offices across Europe. At GATX we empower, develop, and recognize our people, building a culture of excellence, accountability, and respect. We value diversity and open communication to create a collaborative environment. Together, we achieve more and embrace change by challenging the status quo.

To support our growing organisation we are currently looking for an experienced

Power Platform Developer (m/f/d)

to join our IT team and support the development, maintenance, and continuous improvement of business-critical applications and automations within the Microsoft ecosystem. In this role, you will focus primarily on Power Automate, Power Apps and SharePoint Online, while also contributing to Power BI reporting, data validation, and integration scenarios. You will work closely with business stakeholders, IT teams, and external partners to support digitalization initiatives.

Your main responsibilities:

- Collaborate with business stakeholders to understand business processes, gather requirements and propose opportunities for automation and digitalization
- Translate business needs into functional Power Platform and SharePoint solutions, design and validate the solutions
- Develop and maintain Power Automate flows (automation of business processes, integrations, alerts, data pipelines)
- Build and enhance Power Apps (Canvas Apps) supporting business processes

- Support bug fixing, monitoring and optimization of existing applications and flows
- Configure and maintain SharePoint Online sites, lists and workflows
- Collaborate on Power BI reports and datasets
- Assist in connecting Power Platform solutions with data sources (DWH, SQL, APIs)
- Monitor automated processes and provide first-level support and analysis of issues
- Contribute to standardization and documentation of solutions

We offer:

- attractive and well equipped workplace in the heart of the city center
- stable employment based on an employment contract
- interesting job where you can meet diversified challenges and tasks every day
- international working environment, shaped by team work and a great atmosphere
- appropriate remuneration and social benefits of a modern company
- flexible working time including home office model
- close cooperation and exchange of experience with other skilled teams within the GATX group
- opportunity for professional development with wide range of trainings

You are a good fit if you have:

- Minimum 2-3 years of hands-on experience with Microsoft Power Platform solutions
- Strong practical experience with Power Automate, including flows, triggers, connectors, and process automation
- Experience in developing and maintaining Power Apps
- Good knowledge of SharePoint Online, including lists, libraries, permissions, and workflows
- Experience with Power BI, including report creation, data models, and troubleshooting
- Basic understanding of data structures and integrations
- Good communication skills, with the ability to understand business requirements and translate them into practical solutions
- Strong problem-solving skills, proactive approach, and ownership of assigned tasks
- Fluency in English; German or Polish would be an asset.

We are looking forward to receiving your application!

Join our GATX team and let's make railcar leasing easier together.
